

Built on What GCF Has Already Said Yes To

A fully drafted GCF Concept Note - built from your project idea, grounded in approved precedents.

5 DayTURN-
AROUND**10**SECTIONS
COMPLETED**100%**SOURCE-
VERIFIED

THE CHALLENGE: Over **60% of concept notes** from small island states and DAEs fail - they do not meet criteria at all or get stalled when kicked back. Weak climate rationale, incomplete sections, and misalignment with sector pathways are the leading causes - all fixable before submission, if you know where to look.

OUR UNIQUE APPROACH: We build the foundation; your experts provide the finish. We generate a precedent-backed **first draft** of your Concept Note using your inputs and insights from the full corpus of approved GCF projects. This gives your team a ready-to-refine draft.

HOW THE 1st DRAFT SERVICE WORKS

1 Intake Call + Questionnaire
Janus team scoping session captures project idea, country context, results area, beneficiaries, and budget in structured form.

4 Environmental and Social Safeguards
Elaboration of ESS considerations for client review, utilizing relevant precedents as benchmarks to ensure responsiveness.

2 Document Upload
Project brief, feasibility study, prior CNs, and supporting materials provided to us and used to inform the draft.

5 CN Evaluation Run
Draft scored section-by-section using CFI's three-layer methodology. Composite score and readiness rating produced.

3 CFI Drafts 10 CN Sections
Ten sections drafted against GCF V.3.0 using your supplied data, sector paradigm-shift pathways, and informed by approved precedents.

6 CN Delivered
Final draft in GCF V.3.0 Word format + evaluation report + corpus references. Ready for DAE/NDA review and submission.

DRAFTS WE NEED FROM YOU:

Project Concept Summary	Country & Geographic Context
Results Area & Sector	Baseline Data & Climate
Implementing Entity & Co-financing	Co-financing & Arrangements
ESS Categorization	Gender Considerations

WHAT YOU RECEIVE:

Complete Draft: A complete 1st draft GCF Concept Note in V.3.0 template format, covering all required narrative sections and with placeholder text incorporated.

Benchmarked Sections: Every section benchmarked against approved projects in the same results area, sector, and geography - not generic guidance.

Evaluation: An internal evaluation score and gap-check run against the draft before delivery. Actionable recommendations included.

Cited Precedents: Corpus-cited precedent references embedded in the draft, showing exactly which approved projects informed each section.

DRAFTING SERVICES - BUILT ON WHAT GCF HAS ALREADY SAID YES TO:

<p>TIER 1 CN Proposed Strategy: \$500 USD</p> <p>Receive a structured, precedent-backed action plan detailing the exact evidence and framing your Concept Note requires.</p> <p>This report identifies critical gaps early, ensuring your team knows exactly what the Secretariat expects before drafting begins.</p>	<p>TIER 2 Strategy + Drafted CN: \$2,500 USD</p> <p>We accelerate your workflow by generating a precedent-backed first draft of your Concept Note based on your inputs.</p> <p>This provides your project developers with a strong foundation, allowing them to focus on high-level strategy and final refinement.</p>	<p>TIER 3 Strategy + Draft + Evaluation: \$3,000 USD</p> <p>Equip your team with our most comprehensive package: a strategic roadmap, a fully populated first draft, and a rigorous evaluation.</p> <p>We score your finalized draft against all relevant criteria and precedent benchmarks to ensure optimization for submission.</p>
